Blend supplementary insurances

This cover overview is intended to easily show which types of reimbursements are included in an insurance policy. The overview provides a general description of healthcare services. No rights can be derived from this. Additional terms for reimbursement may be included in the policy conditions. There may also be limitations on reimbursement, for example, in the case of a non-contracted healthcare provider.

For a complete overview, we recommend thoroughly reading the policy conditions, which always take precedence.

Blend Grensregio Pakket

Does your policy state that you are also insured for the 'Blend Grensregio Pakket' (Border Region Package)? Then you will receive an additional reimbursement for non-emergency care in Belgium and Germany.

Non-emergency care in Belgium and Germany:

- a. For care provided in Belgium or Germany within a radius of 55 km from the Dutch border, you are entitled to a reimbursement up to 100% of the costs of medically necessary care and dental assistance due to an illness, an accident, or a medical condition..
- b. For care provided in the remaining part of Belgium or Germany, you are entitled to a reimbursement of up to 100% (in addition to the reimbursement through your basic health insurance) of the maximum rate set at the time of treatment under the Healthcare Market Regulation Act (Wmg) if the care provided would have been covered in the Netherlands. If and insofar no (maximum) Wmg rates have been set, you are entitled to reimbursement of the costs up to a maximum of 100% of the prevailing market rate in the Netherlands in addition to the reimbursement through your basic health insurance (up to 200% combined).

Conditions for reimbursement

We only reimburse the costs if we would also reimburse these in the Netherlands from the basic health insurance and if the claim amount exceeds the reimbursement from the basic health insurance.

The treatment must take place with recognized (or equivalent) care providers.

Are you entitled to non-emergency care abroad under the basic health insurance? Then the reimbursement applies as a supplement to the basic health insurance.

Are you being admitted to a hospital? Then the reimbursement is limited to a reimbursement of the costs of a maximum of 365 days per case of illness. By illness we mean: any uninterrupted need for medical treatment, which results from the same cause of illness or the same accident.

Blend Ziekenhuis Extra

With the 'Blend Ziekenhuis Extra' (Hospital Extra Insurance) you are entitled to reimbursement of the costs of staying in a single or double room when staying in a hospital in Belgium and Germany, while this is not medically necessary. You can see on your policy schedule whether you have taken out the 'Blend Ziekenhuis Extra' insurance.

Comfort facility for hospital stay in Belgium or Germany

Are you 18 years or older and are you staying in a care institution in Belgium or Germany? And are you receiving medical treatment there that we have contracted? Then we reimburse the extra costs that the care institution charges for staying in a single or double room. We also reimburse the costs of a possible fee supplement.

If the single or double room is not available to you, we reimburse € 70 per day that you stay in the hospital (the so-called daily allowance). We then reimburse up to a maximum of € 4,900 per calendar year.

Are you staying in a care institution in Belgium or Germany? And are you receiving medical treatment there that we have not contracted? In addition, you are not entitled to reimbursement of additional comfort services for both contracted and non-contracted medical treatments in Belgium or Germany.

Taxi transport to and from the hospital

Do you incur costs for taxi transport on the first and last day of your hospital stay in Belgium or Germany? Then we reimburse the costs of this transport from your home address to and from the hospital. Is someone accompanying you with this transport? Then we also reimburse the costs of his or her outward or return journey. We reimburse a maximum of 4 taxi journeys per hospital stay.
