

Cover Overview 2024 Blend dental insurances

This cover overview is intended to easily show which types of reimbursements are included in an insurance policy. The overview provides a general description of healthcare services. No rights can be derived from this. Additional terms for reimbursement may be included in the policy conditions. There may also be limitations on reimbursement, for example, in the case of a non-contracted healthcare provider.

For a complete overview, we recommend thoroughly reading the policy conditions, which always take precedence.
Questions? Feel free to call us at 0115 - 61 83 44.

Exclusions

* We do not reimburse the costs of:

- autografts;
- subscriptions;
- whitening teeth and molars;
- cosmetic treatments that change the color, shape, or position of the tissues in and/or around the mouth;
- fluoride treatments and white spot treatment;
- partially completed work;
- treatments by the dental surgeon on referral from the dentist (this is reimbursed by basic insurance);
- inspection reports and statements;
- full anesthesia and laughing gas;
- missed appointments;
- snoring mouthpieces (MRA) and myofunctional equipment and the accompanying diagnostics and aftercare;
- therapeutic injections with botox;
- fillings in baby teeth.

Blend Grensregio Pakket

Does your policy state that you are also insured for the Blend 'Grensregio Pakket' (Border Region Package)? Then you will receive the same reimbursement from this package for treatments in Belgium and Germany. This means that the rates as applied in Belgium and Germany apply. The maximum reimbursement as included in your dental insurance remains the same.

Conditions for reimbursement

1. We only reimburse the costs if we would also reimburse them in the Netherlands through dental insurance.
2. The treatments must take place at recognized (or equivalent) healthcare providers.
